Work Experience

Compugraphs Softech Solution PVT LTD. BBSR, Odisha

- From **JUN 2024** to **JAN 2024**, I worked as a **UI Designer Intern** at **Compugraphs**, independently handling live projects Software such as **EDUCARE** (ERP), **BIOKNOX** (ERP, Web, Admin, ESS, Attendance), and the **Compugraphs** website. My role focused on full frontend designs, utilizing HTML, CSS, Bootstrap, jQuery, and JavaScript. Additionally, I implemented a fully responsive and editable calendar using Calendar.js. These projects were powered by a C# and .NET backend.

PROJECTS

Portfolio Website - https://bharadwajasahoo.netlify.app

- Constructed a mobile-adaptive layout using a combination of HTML elements and CSS3 properties like background, flex, and CSS box model attributes.
- In this site I used GSAP for Animation, Scroll Trigger and more advance technology that helps user with interaction, and a more I added a switch that indicates and behaves two website structure at a time.

Technologies used: HTML, CSS, JavaScript, GSAP, Scroll Trigger

Work Showcase Website - https://bharadwaja-sahoo.github.io/MyWorkShop/

- This Site only Show What are my projects done in this field and here to showcase all I used AJAX for fetch all the Data. And In this One Project I give All project Links Directly.
- Constructed a mobile-adaptive layout using a combination of HTML elements and CSS3 properties like background, flex, and CSS box model attributes.
- In this site I used GSAP for Animation, Scroll Trigger and more advance technology that helps user with interaction, and a more I added a switch that indicates and behaves two website structure at a time.

Technologies used: HTML, CSS, JavaScript, GSAP, Locomotive Scroll, AJAX.

Shoppingkaro.com (React-js) - https://shoppingkaro-react.onrender.com/

- Build an Ecommerce project that does something and had quantified success using Html, CSS and JavaScript.
- Designed with HTML, CSS and React.Js to ensure a user-friendly interface for managing tasks.
- Dynamic UI updates through JavaScript event listeners and DOM operations for seamless CRUD operations.
- Secure task persistence through local storage methods, ensuring that tasks are never lost.

Technologies used: HTML, CSS, JS, React.js.
